◀ The SP YM NQ and TF have shown little conviction in the overnight trade and have yet to trade above/below the highs/lows from Tuesday.

Questions to answer throughout the day:

- What is the market doing?
- What is the market trying to do?
- How well is it getting it done?

What I did well today:

- I recognized CHOP DAY EARLY
- Also didn't have enough rest decided not to trade
- Maintained calm and observed market action
- Continued C# training

What could I have done better:

- Made even better use of my time and stayed on task better.
- Set up AUTO TRADING with conservative entry/exits to gain ticks with minimum risk.
(Although hard to do as because lack of rest could not trust totally market)

What will I do tomorrow to make things better:

- More sleep
- ATM and Check Sheets for trading.
- C# programming.
