- What is the market doing?
- What is the market trying to do?
- How well is it getting it done?

What I did well today:

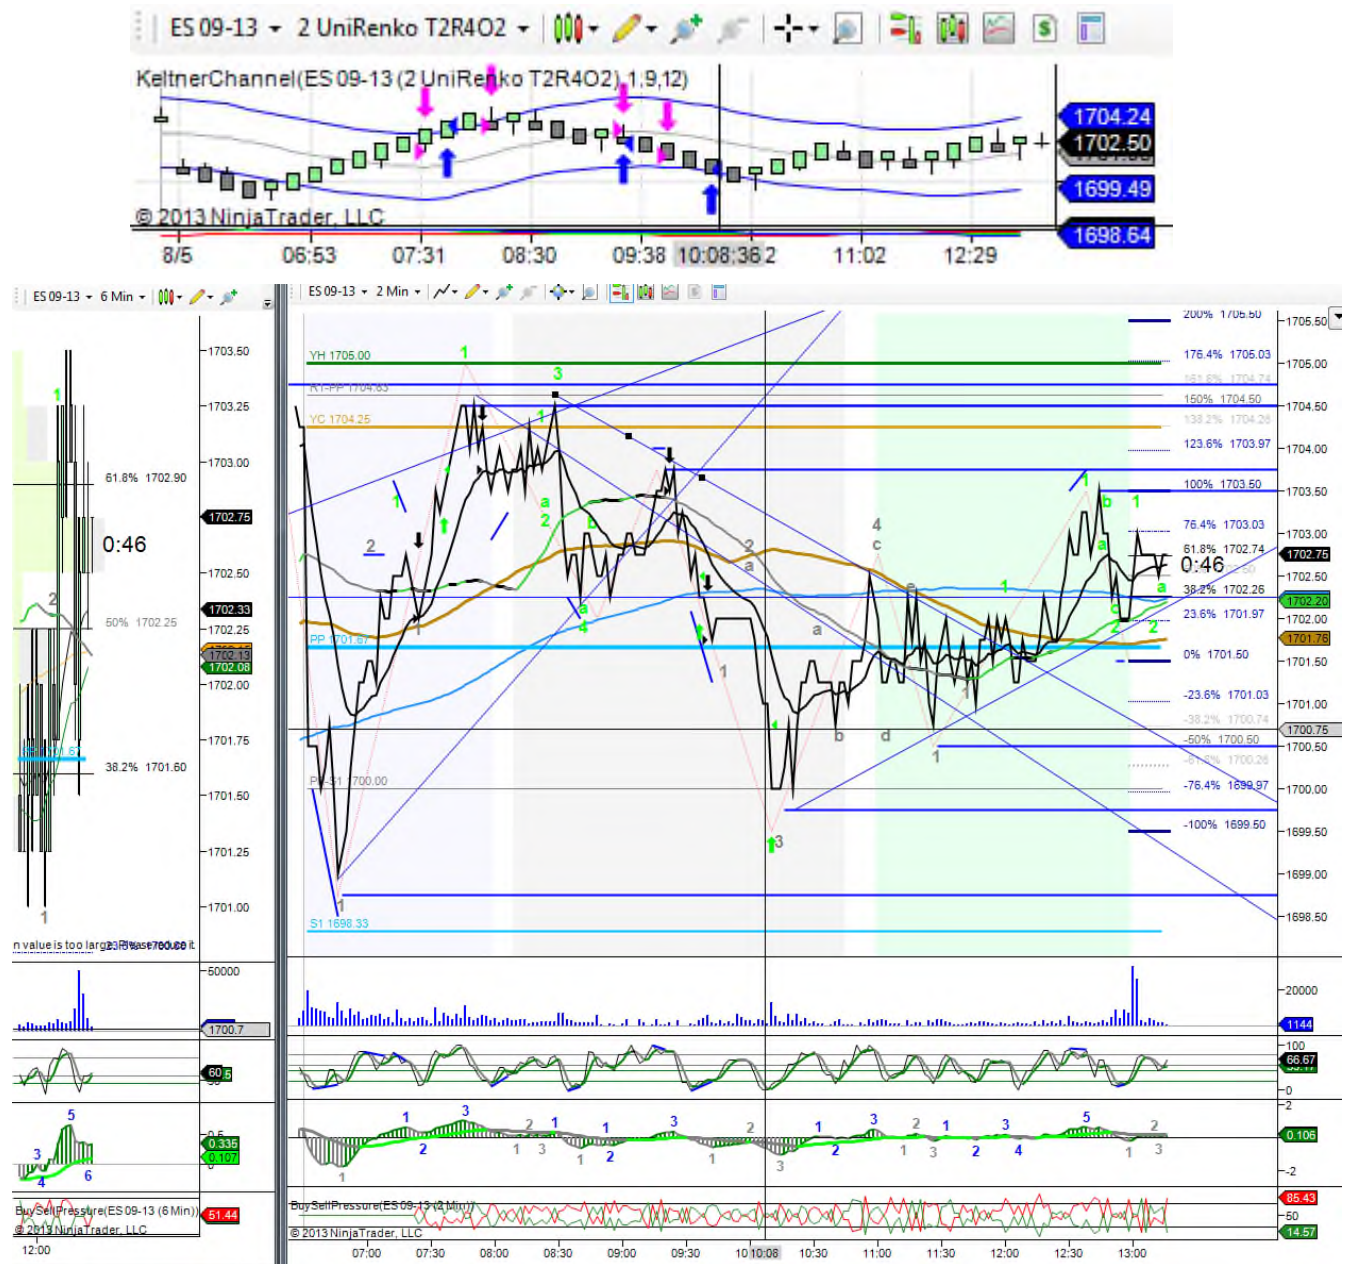

- Today I took it easy as daughter had me up until 3am EST.
- I had horrible first trade but stayed with it into the stops (don't know how good or bad that is.)
- I used OCO orders for all my entries. Due to chop kept with 3/2 Profit /Loss ratio for the day.

What could I have done better:

- I am still having trouble with losing steam so maybe could have taken the one reversal trade I saw in the market. Ha Ha Ha... Actually just a chop bounce as really tight range today.
- I could have used my RENKO Reverse Strategy today, although has not been perfected, so I could have worked on that as well.

What will I do tomorrow to make things better:

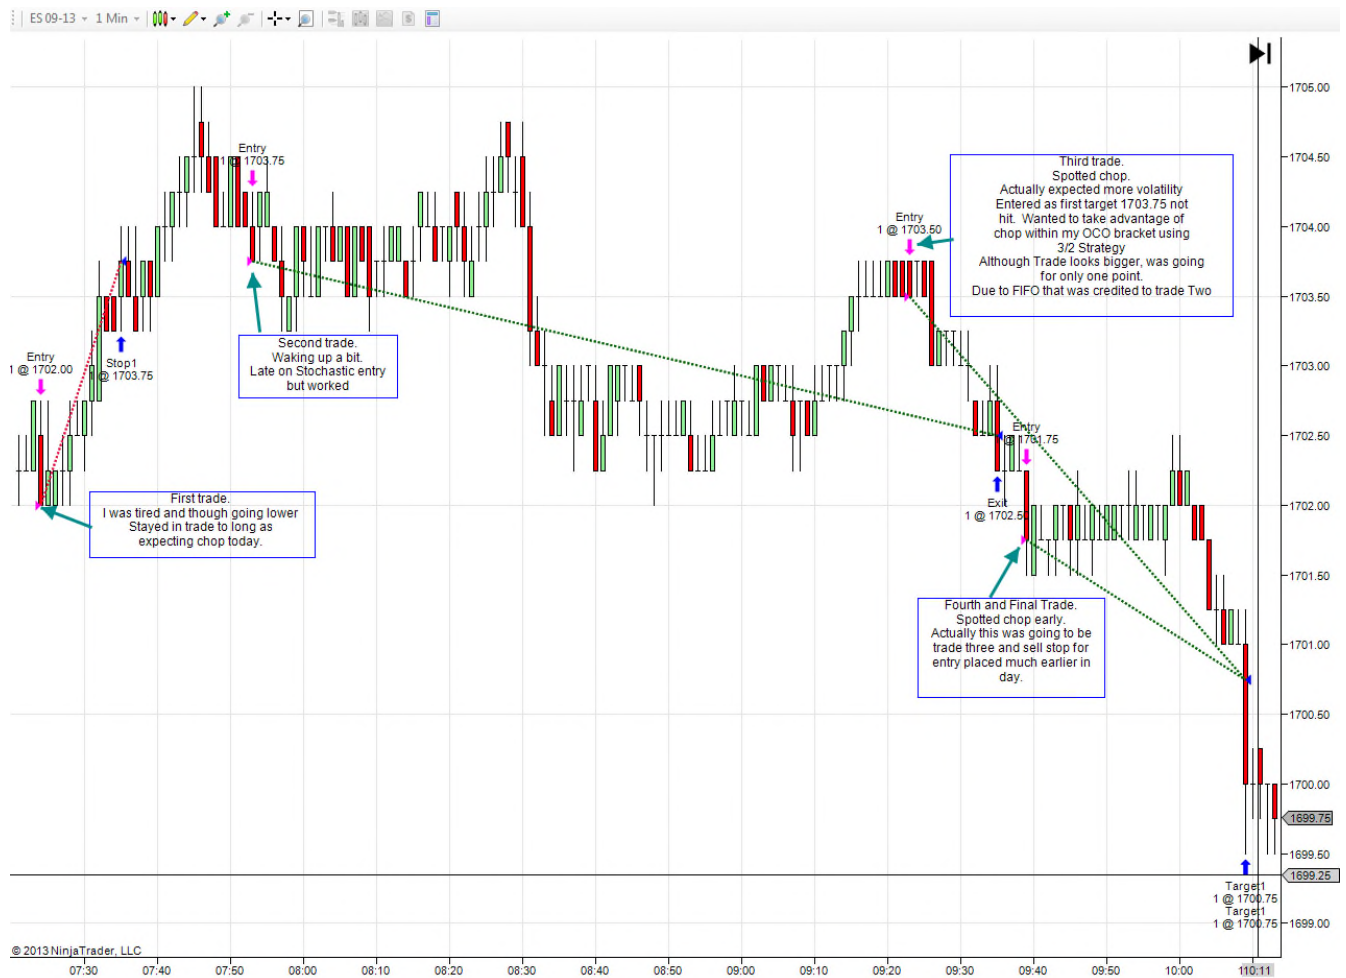

- Tomorrow's trading starts today.
- I will get a full nights sleep.
- Trade with concentration on the market.
- Use all my tools.
- Take breaks.
- Monitor my trades better.
