

Questions to answer throughout the day:

- What is the market doing?
- What is the market trying to do?
- How well is it getting it done?

Move is before any reporting in PIT or NEWS... Have to trade the surge on FED announcement. Take three points with Move and either exit or reverse... Better to exit. Now I think we are back into CHOP trade. Will have to see how rest of day shapes up.

What I did well today:

- Traded SIM at end of day vice CASH
- Observed when felt not ready to trade.

What could I have done better:

- Not second guess myself and market.
- Go with the flow more.
- Take calculated risks rather than huddle in corner.
- Not let past adversely affect future trades.
- Accept that it is odds game and get out an play more.

What will I do tomorrow to make things better:

- Insure that I get more rest.
- Follow up with market and clean up study to create better working environment.
- Work at getting travel laptop setup so as not to distracted by not having myself ready for trading on the road.
