

RTY												
Date	Time	Pattern	Side	Risk	Tgt	RFE	MAE	MFE	W/L	Trade	Context & Notes	
2/12/19	Plan:	YR=160t, 1/8=20t. Start with -25t / +38t. Log some H/L2 patterns.										
	Result:	Expanded tgts didn't work. Stops were OK, but had to take 1:1.										
	Day:	Bull TFTO. Gap-n-go sets up a measuring gap on the cash index.										
	Notes:	Didn't log the ranges above YR 200% and HTF 200%, but they worked.										
L	8:30	YR 150%									didn't set up for a trade. Just a TFTO.	
	8:36	GH	S	25	38	40		1	L			
	8:36	YR 162%	S	25	35	37		4	L	-25	Wrong side. Trading for some sideways after the big gap.	
	8:38	YR 175%	S	25	38	40		11	L		Only 1t MFE if using 20t stop.	
	8:45	HTF 200%	S	25	54	56		29	SL	-16	Chased and was 5t worse off. Bad tgt makes wrong side a factor.	
	8:45	YR 187%	S	25	38	40		31	L		2t above above. If using 20/20, there are 6W 1L starting here.	
	9:55	YR 200%	S	25	38	40		0	L		Sideways ends w/ strong BO. End of YR unless they sell back inside (maybe).	
	10:04	1d chan BOPB	B	20	20	25	2	27	W		RFE back to broken bull chan mean price. Side is right but expanded tgts still not working.	
H	10:27	1d chan FBO DT	S	20	20	23	4	63	W		MFE from YR 225% (seen later). RFE back to 1d chan BO price.	
	10:47	1d TL	B	20	20	20	5	36	W		1m anchors, from the open. The exit sets up a rev at YR 212% seen later.	
	10:45	YR 200%	B	20	20	20	16	23	W		went +23 -23, setting up a wheel that got sloppy.	
	11:15	YR 187%	B	20	20	20	3	39	W		BE for morn H&S sellers (NOT the textbook ver). Begin sideways at mid-day/mid-range.	
	11:54	HTF 200%	B	20	20	56	1	41	W		There's a 1/4 curve tgt!	
	12:33	YR 200%	S	20	20	20	28	18	L		If it's a wheel, this is the axle and sellers will stop out at the 1:1 risk.	
		YR 200%	B	20	20	20	18	28	W		Nice round bottom. P&P a BOPB buy (too sideways for me). Tgt out at 14:59.	
		Cheese sandwich time (gov't cheese).
